

# HoseReel 7

This seven stage hose reel greatly saves time when cutting hose. The most common types are always available at the cutting machine. Every stage (except for the bottom stage) can be swung out horizontally so that new roll can easily be inserted. The reel should preferably be placed 1- 2 m from the cutting machine."

## DIMENSIONS

Width/ Depth/ Height ..... 1152x1010x2210 mm  
Max. outer diameter of coil..... 931 mm  
Min. inner diameter of coil..... 260 mm  
Weight ..... 150 kg

## DESIGNATION:

HoseReel 7 ..... 9004-00-07-1  
Wheel Kit ..... 9004-01-21-1

## PART NUMBER:

## TECHNICAL DATA

Hose capacity ..... 3/16 - 1 1/4"  
Max Load per reel ..... 80 kg  
Colour ..... Zinc plated / Black
